

AMERICAN MUSCLE GRILL

AMERICAN MUSCLE GRILL

We can argue all day about what fuel is “best” for grilling, but now we can put an end to all that. Instead, you can rev up this multi-fuel monster and enjoy all of the benefits of gas, charcoal, lump coal, wood chunks and infrared - all in a single grill. This patent-pending multi-fuel design offers the griller ultimate variety and convenience. Use all of these fuels simultaneously, or choose the perfect match for your meal. You can cook with gas, or simply use it to ignite the solid fuel of your choice in just seconds - also reload or switch fuels at any time without disturbing the cooking process. If alternative fuels aren't your thing, don't worry. The AMG has gas covered, with over 100,000 BTUs of horsepower and a patent-pending heat dispersion design to get the job done right. Whatever the situation, this grill will not only accommodate, it will revolutionize your grilling experience.

36" AMERICAN MUSCLE GRILL
